

“At 7 years old, John Lux began collecting sports cards. Fifteen years later he sold his collection to a single buyer, which helped found Lux Homes LLC. Now John Lux is one of the dominant builders in Kirkland.” Seattle Homes and Lifestyles Premier Builders, September 2005.

John Lux has been building homes for 15 years. He comes from a family who has been in land and building development for over 50 years. John’s Seattle roots allow him to build a home that works with your neighborhood and your lifestyle.

The key word in John’s philosophy is “value”. Lux Homes values relationships with customers and subcontractors as a key part to the company’s growth and success. Providing value for your dollar, Lux has an understanding of functions that time and cost play in building a home. The faster we build a home and the closer we watch the expenses, then the higher value we have provided for the dollars you spend.

John Lux has been building homes in Greater Seattle with honesty, quality, respect and conscientiousness at an excellent value. Visit us at our website. www.luxhomesllc.com
